

Sean Becker

ASP.NET developer

I want the word passion to be my byword. It is my wish to become the Lode Star that always illuminates the right path. I love my job and find my joy and success in your success. Always the desire for learning and the steady power of inquiry will lead me to a higher place. The boundless sea of learning, endless creativity, and the drive to create new things are my characteristics.

Work experience

From May
2019 to Apr.
2022

Full Stack developer / [Dataforth Corporation](#) South San Francisco, United States

- Provided full-stack development of an enterprise website.
- Managed several migrations to new generations of site features and capabilities.- Created a system configuration tool that enables customers to build, configure, and price data acquisition systems.
- Implemented the use of Bootstrap in a website to facilitate a responsive UI.
- Constructed sync processes that allow the site to perform real-time sync with an email marketing database, using REST API.

Technologies: Bootstrap, Microsoft SQL Server, ASP.NET, .NET 4, ASP, User Interface (UI), REST APIs, Angular

From Apr.
2018 to Feb.
2019

Work experience

From Apr.
2009 to Nov.
2013

Software developer / **Leading Semiconductor Manufacturer (Contractor)** Unite States

- Developed a Windows desktop application to provide the worldwide sales force with a product data repository, search, and presentation capabilities.
- Improved an application and enabled it to function without an internet connection, with a sync utility that updates all data and content when the network connection was available.
- Integrated several product search tools for a wide variety of semiconductor product offerings.
- Created a presentation system to autogenerate sales presentations from structured data and account for a wide variety of screen and projector sizes.
- Built several back-end batch processes to automate data transformation from a range of sources to a common snapshot for client-sync availability.

Technologies:, ASP.NET, VB.NET, .NET, .NET 2, Xamarin, C#

Education

From Oct.
2012 to Apr.
2016

Bachelor's Degree in Computer Science / **Free University** - Georgia, Tbilisi Georgia
